Company Profile

The Cable Services Group was founded in 1971 and is the UK's leading Specialist Electrical Distributor. We stock and supply both cable and cable accessories to the domestic and international markets, sourced from a select number of leading product manufacturers from our UK locations. All products and services are closely related and centre on cable and its immediate accessories at voltages up to and including 132kV.

The markets we serve:

Utilities
(including DNO's, IDNO's and ICP's)

Industrial Commercial

Power Generation & Transmission
(including Renewables)

Rail

OGP
(Oil Gas and Petrochemical)

We provide full technical back up to our customers on all the products supplied by the Group. Our customer facing personnel are exceptionally well trained and therefore able to assist with enquiries relating to our full product portfolio. In addition to our own expertise, our long standing relationships with our supply partners ensure that their technical knowledge is immediately available. We are the market leader in our industry sectors and coupled with our significant skills in stockholding and managing the complete logistics package, we are perfectly positioned to service the market and satisfy our customer needs.
